## SEAL OF THE COLUMBIAN COLLEGE

In 1819, the Reverend Luther Rice, Obadiah B. Brown, Spencer H. Cone, and Enoch Reynolds (all Baptist ministers) set in motion the reality of a college in the District. These men raised the needed funds to purchase land in the nation's capital, petitioned the Congress for a charter, and began organizing a college.

On February 9, 1821, President James Monroe signed the Act of Congress which created the College. By design of the Congress, a special provision was included which required that “persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor or pupil, be refused admittance, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion.”

The original seal was designed by James Peale in 1821, at the time of the founding of the Columbian College. This is the seal that the graduates are wearing today as medals. The seal features a Biblical lion lying down with a lamb and Greek text in an open book. The Greek translates to “In the beginning was the Word, and the Word was with God.”

In 1873, the name Columbian College was changed to Columbian University and the seal was changed slightly to reflect this. The Latin text around the outside was changed from “Columbiani Collegii” to “Universitatis Columbianae Sigillum.” In addition, some text was added to fill up the rest of the open book, since the Greek phrase only took up part of one page. In 1905, after the name changed to the George Washington University, the old seal was replaced by a completely new one.

The original Columbian College seal is currently on display in the Memorabilia Room of Gelman Library.

### *Congratulations, Graduates!*

This day marks the beginning of a new and exciting journey. As a graduate of the Columbian College of Arts and Sciences, you now carry with you the skills that our university's namesake considered essential for responsible citizenship, skills that will help you be informed and effective global citizens. I encourage you to use your studies as a foundation for contributing to your communities and making a difference in whatever field you pursue.

As students of the liberal arts, you were driven by your desire to explore new ideas, to think broadly, be creative, ask questions and tackle new challenges. You took chances, combined your academic rigor and achievement with a spirit of exploration and adventure, and enhanced your intellectual and personal growth through GW's unique connections across the nation's capital and around the world.

During your time here, you collaborated with world-renowned scholars; benefited from research grants that positioned you to explore exciting innovations; and had access to the world's top research and cultural institutions—from the Library of Congress to the National Institutes of Health to the Smithsonian. You've also had a front-row seat to history and have experienced some truly special "only at GW" moments.

The relationships you established will provide a strong network to keep you connected with this institution and the world beyond our campus. Wherever you go, be proud to call yourself a George Washington University graduate. It is a privileged group, one that will reward you both personally and professionally.

Please know that the GW community will always be open to you, wherever and however you choose to keep in touch. I encourage you stay connected through our social media platforms and read about our continued progress—and your continued impact—in our alumni publications. When the opportunity arises, I also hope you come back to Foggy Bottom to attend an event, participate in a campus forum or visit a faculty member.

Congratulations and all my best wishes as you embark on a future of promise and unlimited possibility!

Sincerely,

A handwritten signature in black ink that reads "Paul J. Wahlbeck". The signature is fluid and cursive, with a large initial "P" and "W".

### **Professor Nicole Encarnacao Bartels**

*Teaching Assistant Professor of Political Science*

Nicole Bartels is a teaching professor with a concentration in American politics in the Department of Political Science. She is also an instructor for interns and fellows at the Congressional Hispanic Caucus Institute through its partnership with GW's Cisneros Hispanic Leadership Institute. Her teaching philosophy and style emphasizes student engagement, active learning, and bringing politics and government to life in the classroom. Prior to her academic teaching, she worked as a legislative assistant on Capitol Hill and served as director of legislative affairs for the Alzheimer's Foundation of America. She earned a M.A. in political science from Ohio State University, a M.A.T. from Stony Brook University, and a B.A. from Union College in Schenectady, New York.

*3:30pm*

### **Professor Immanuel Kim**

*The Korea Foundation and Kim-Renaud*

*Associate Professor of Korean Literature and Culture Studies*

*East Asian Languages and Literatures Department Chair*

Dr. Immanuel Kim, a specialist in North Korean literature, cinema, and culture, is the Korea Foundation and Kim-Renaud Associate Professor of Korean Literature and Culture Studies and chair of the Department of East Asian Languages and Literatures. He received his MA in Philosophy and Literature at Warwick University, UK and PhD in Comparative Literature from the University of California, Riverside. He taught at SUNY Binghamton before coming to The George Washington University. At GW, he teaches courses on Korean literature and cinema, Korean pop culture, and his "sell-out" course: North Korean Society and Culture.

*12:00 pm*

### **Justin Nathaniel Grady**

*B.S. in Psychological & Brain Sciences '23*  
*2023 Distinguished Scholar*

Justin Grady from Wyncote, Pennsylvania, was a Luther Rice Undergraduate Research fellow and member of GW's Varsity Men's Soccer team, majoring in Psychological and Brain Sciences. As an undergraduate student, he performed research under the direction of Dr. Stephen Mitroff in GW's Visual Cognition Lab, with a focus on visual search and individual differences. His project assessing the relationship between fatigue, conscientiousness, and visual search performance led to a poster presentation at the annual meeting of the Vision Sciences Society and a first-authored publication in the academic journal *Cognitive Research: Principles and Implications*. In recognition of his exemplary research, Grady was one of two undergraduate students nationwide to be honored with the prestigious Research Excellence Award from the Federation of Associations in Behavioral and Brain Sciences, and he was awarded a GW Undergraduate Research and Service Grant to support his research efforts.

Outside of the lab, Grady found success on the field for GW's Men's Soccer team. He was named to the United Coach's Association all South-East region team and the Atlantic 10 All-Championship team, and was ranked in the top 10 NCAA Men's soccer goalkeepers for several statistical categories. He also served as the on-campus relations chair for GW's Black Student Athletic Alliance and received the Red Auerbach award, which honors the most well-rounded student athlete in GW's Athletics Department. In the fall, he plans to pursue a Ph.D. in cognitive neuroscience at GW, where he has been awarded a Provost Graduate Fellowship in recognition of his early career achievements and potential to produce exceptional research.

*3:30pm*

### **Parker E. Blackwell**

*B.A. in Archaeology; B.A. in Classical & Ancient Near Eastern Studies '23*  
*2023 Distinguished Scholar*

Parker Blackwell, from Baton Rouge, LA, majored in Archaeology and Classical and Ancient Near Eastern Studies with a focus in cultural heritage. She is a proud member of the University Honors Program, the Phi Beta Kappa Honors Society, and the pre-professional anthropology fraternity Delta Iota Gamma.

Blackwell spent the majority of her time as an undergraduate engaged in independent research. With the help of the Luther Rice Fellowship, she substantiated policy recommendations to mitigate the illicit antiquities trade in West Africa. More recently, her research was focused on cultural exchange in the ancient Near East. These projects complemented her sustained work in non-profits and museums. She continues to advocate for the preservation of heritage, be it local or international, modern or ancient.

With the generous support of the Gates Cambridge Foundation, she will delve deeper into the modern implications of cultural heritage as a graduate student at Cambridge University in the fall.

*3:30pm*

### **Gabriel Nathanael Grauvogel**

*B.S. in Physics '23*

*2023 Distinguished Scholar*

Gabe Grauvogel majored in Physics with a minor in Music, and was a Sigma Pi Sigma inductee and two-time Luther Rice Fellowship recipient. He also worked as a Learning Assistant and Peer Tutor, and was president of GW's Chapter of the Society of Physics Students (SPS). At SPS, he led outreach activities at local elementary schools such as I CAN Science with Life Pieces to MasterPieces, and organized GW's reception as the host chapter for the 2022 Physics Congress.

As a student, Grauvogel studied a phenomenon called two-photon exchange under the guidance of his mentor, Dr. Axel Schmidt. Broadly, his research probed the structure of the proton. He was involved in every part of the experimental process ranging from creating proposed experiments, simulating experimental setups with computational physics software, taking data and analyzing it on site abroad at DESY in Hamburg, Germany, and presenting his work through both publication and presentation in peer-reviewed journals and at national conferences. He presented at the Division of Nuclear Physics APS fall meetings; one as a poster and another as a talk, and was a lead-author and contributor of two peer reviewed publications.

In the fall, Grauvogel will be matriculating to Michigan State University to pursue his PhD in Experimental Nuclear Physics.

### **ROBERT W. KENNY PRIZE FOR INNOVATION IN TEACHING OF INTRODUCTORY COURSES**

The Robert W. Kenny Prize for Innovation in Teaching of Introductory Courses is awarded annually to a faculty member in the Columbian College of Arts and Sciences who has shown innovation, creativity, and originality in teaching an introductory course in the Arts and Sciences. The recipient, who is among the most talented of our teachers, teaches an introductory or basic course during the academic year in a novel and innovative way. Professors receiving this award have encouraged their students to think differently, allowing them to take advantage of their academic experience at the George Washington University. The Kenny Prize honors former Dean Robert Kenny and his special dedication to stimulating experiences for GW students and his emphasis on the importance of introductory courses as students undertake their studies in the liberal arts and sciences.

#### **Professor Michelle Kelso**

*Assistant Professor of Sociology and International Affairs*

Dr. Michelle Kelso, director of the Human Services & Social Justice Program in the Department of Sociology, is passionate about teaching community-engaged classes that provide classroom-to-community experiences. She teaches courses in the field of social justice, Holocaust studies, and research methods. Her scholarship focuses on the Holocaust in Eastern Europe, with interest in the intersection of memory, marginalization and contemporary education policy. Recently, Dr. Kelso began a research project on civil society participation in Romania, Poland and Moldova since the outbreak of the war in Ukraine. She has been a recipient of three Fulbrights and a fellowship at the United States Holocaust Memorial Museum.

### **THE COLUMBIAN PRIZE FOR TEACHING AND MENTORING ADVANCED UNDERGRADUATE STUDENTS**

The Columbian Prize for Teaching and Mentoring Advanced Undergraduate Students is awarded to a regular, full-time faculty member in the Columbian College of Arts and Sciences who demonstrates excellence in the teaching and mentoring of advanced undergraduate students. With this prize, we recognize exceptional achievement in one or more of the following areas of work: teaching an advanced undergraduate course, advising students, directing undergraduate research, designing a capstone experience, or mentoring students who achieve departmental honors and other distinctions.

#### **Professor Hosam M. Mahmoud**

*Professor of Statistics*

Dr. Hosam Mahmoud has been a GW Professor of Statistics since 1983. He holds degrees in electrical engineering and in mathematics from Cairo University, Egypt, and a Ph.D. in computer science from Ohio State University. His research interests are in the areas of probabilistic analysis of algorithms, networks, big data, searching and sorting, random structures, and randomized algorithms. Dr. Mahmoud is a productive scholar with four books and more than 120 peer-refereed papers, of which 25 are single-authored and many are in premier journals.

He has real interest in mentoring undergraduate students willing to go above and beyond the boundaries of textbooks and curricula.

## 2023 AWARDS AND PRIZES

### THE LUTHER RICE UNDERGRADUATE RESEARCH FELLOWSHIPS

Established by the Dean of the Columbian College in 2003, the Luther Rice Undergraduate Research Fellowships are designed to encourage and support research projects initiated by undergraduate students and performed under the mentorship of faculty sponsors. Luther Rice, one of four founders of the original Columbian College, which grew to become the George Washington University, was known for his tenacity of spirit and integrity of intellect. In this spirit, the Luther Rice Undergraduate Research Fellowships are intended to support critical inquiry and intellectual honesty through practical support of student research.

#### 2022-23 Luther Rice Undergraduate Fellows:

Neha Ahmed	Justin Nathaniel Grady	Julia Kerrigan	Daria Ordynat
Mohammed Almarkhan	Gabriel Nathanael Grauvogel	Prudence Olivia Lindbergh	Sarah Shamash
Reem Omer Ahmed Bahr	Thomas P. Huebler	Athanasios Naum	Zachary R. Stickelman
Jo S. Evard	Viet Tien Huynh	Victoria Rainis	

### UNDERGRADUATE STUDIES AWARD

The CCAS Office of Undergraduate Studies has launched its inaugural annual prize to an outstanding graduating undergraduate student. This award recognizes innovation and leadership in community service and/or activism and academic performance.

#### 2022-23 Undergraduate Research Awardees:

Hannah Longbottom Estrada Dylan Jordan Rexroth

#### Honorable Mentions:

Julia Kerrigan Olivia D. Gower

### EMERITUS FACULTY 2023

The faculty code provides that a member of the faculty with long and distinguished service to the university may, upon retirement, be awarded emeritus status. While these words convey both the criteria and process for awarding this academic rank, they fail to connect fully with the countless students whose lives have been enriched by these colleagues, the contributions each has made to the discipline, or the service each has rendered to this college.

*The celebration program is meant to be a guide to the ceremony. Although every effort has been made to ensure its accuracy, the program is not an official record of an individual's degree status. The Office of the Registrar of the university maintains the official list of all graduates.*

Elizabeth Craig, MPA '83

*Dear Graduate:*

On behalf of the Columbian College National Council for the Arts and Sciences, I offer my congratulations on your significant achievement and welcome you to the George Washington University alumni community. Do not underestimate your accomplishment.

As an alumna of this historic institution, I fully appreciate the excitement of this very special moment in your life and remember that feeling well. You are now a member of a select group of individuals, bonded by a college for which you will forever be proudly associated. I encourage you to remain involved and, more importantly, engaged with the university as you enter this next phase of your life. Your opportunities to make a difference are endless—from becoming an active member of the Alumni Association organizing regional and local alumni events, to mentoring a student, offering services as a career advisor or being a guest lecturer, and providing philanthropic support. Each of these types of engagement offers unique and wonderful opportunities to continue showing your pride in the university and passing on that GW spirit.

My work as a volunteer on the National Council—which is comprised of alumni, parents, and friends who advise the dean of the Columbian College—has been an incredibly rewarding experience for me. I hope you find similar avenues of engagement and find opportunities to advance GW's promise and potential.

Finally, it is not lost on anyone that your time here has required significant personal dedication and financial commitment. We are grateful for your investment and hopeful that your degree will lay the groundwork for future success in whatever career you choose.

Again, congratulations! It is both an honor and a pleasure to welcome you as a graduate of the Columbian College of Arts and Sciences, and I hope to see you at a GW event soon.

Raise High!
