2024 GRADUATION CELEBRATION
THE SEVENTEENTH OF MAY, TWO THOUSAND TWENTY FOUR
MASTER'S PROGRAMS

Columbian College of Arts & Sciences
THE GEORGE WASHINGTON UNIVERSITY
2024 GRADUATION CELEBRATION
MAY 17 | 8:30 A.M. | CHARLES E. SMITH CENTER
In 1819, the Reverend Luther Rice, Obadiah B. Brown, Spencer H. Cone, and Enoch Reynolds (all Baptist ministers) set in motion the reality of a college in the District. These men raised the needed funds to purchase land in the nation's capital, petitioned the Congress for a charter, and began organizing a college.

On February 9, 1821, President James Monroe signed the Act of Congress which created the College. By design of the Congress, a special provision was included which required that “persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor or pupil, be refused admittance, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion.”

The original seal was designed by James Peale in 1821, at the time of the founding of the Columbian College. This is the seal that the graduates are wearing today as medals. The seal features a Biblical lion lying down with a lamb and Greek text in an open book. The Greek translates to “In the beginning was the Word, and the Word was with God.”

In 1873, the name Columbian College was changed to Columbian University and the seal was changed slightly to reflect this. The Latin text around the outside was changed from “Columbiani Collegii” to “Universitatis Columbianae Sigillim.” In addition, some text was added to fill up the rest of the open book, since the Greek phrase only took up part of one page. In 1905, after the name changed to the George Washington University, the old seal was replaced by a completely new one.

The original Columbian College seal is currently on display in the Memorabilia Room of Gelman Library.
Dear Graduates,

Today marks the commencement of a journey filled with promise and endless possibilities. Your graduation from the George Washington University Columbian College of Arts & Sciences marks a new beginning, one in which you carry invaluable skills that will empower you to be informed and impactful global citizens. I urge you to leverage your academic accomplishments as a springboard for enriching your communities and effecting positive change in your chosen paths.

As a student of the liberal arts and sciences, you engaged in the pursuit of new ideas, embraced broad and agile thinking, nurtured creativity and innovation, and worked with faculty to help tackle today’s most challenging issues. You melded scholarly rigor with a spirit of exploration and adventure, thereby fostering not only intellectual but also personal growth, amplified by the university’s distinctive research and networking connections spanning the nation’s capital and beyond.

It is my hope that the bonds you forged here will remain strong and extend far beyond our campus borders. Wherever your paths lead, wear your identity as a George Washington University graduate with pride. You are part of an esteemed cohort that will enrich your life both personally and professionally.

And please know that our university community stands open to you, welcoming your continued engagement in whatever form it may take. I encourage you to maintain connections and stay abreast of our ongoing progress—and your enduring impact—in our alumni publications. And when the opportunity arises, I hope you will return to Foggy Bottom to participate in events, engage in campus dialogues, or reconnect with faculty members.

Congratulations on this momentous achievement and accept my heartfelt best wishes as you embark on a future brimming with boundless opportunities!

Warm regards,

Paul J. Wahlbeck
Dean
Columbian College of Arts and Sciences
ORDER OF EXERCISES

PRELUDE......................................................................................................................... Corcoran Brass

ACADEMIC PROCESSIONS .................................................................................................. Deans, Faculty, and Students

WELCOME ............................................................................................................................ Chad Heap
   Associate Dean for Graduate Studies

FACULTY SPEAKER ............................................................................................................. Edwin Lo
   Assistant Professor of Data Science

AWARD FOR EXCELLENCE IN THE MENTORING OF MASTER’S STUDENTS ........................................................................................................... Presented by Kimberly Gross
   Vice Dean for Programs and Operations

EXCELLENCE IN THE MENTORING OF MASTER’S STUDENTS Awardee .............................................................................................................................. Suse Anderson
   Associate Professor of Museum Studies
   Corcoran School of the Arts & Design

DISTINGUISHED MASTER’S DEGREE SCHOLAR ................................................................ Naïssa Lindsey Pierre
   Applied Economics

ANNOUNCEMENT OF STUDENT AWARDS ........................................................................ Chad Heap
   Associate Dean for Graduate Studies

INTRODUCTION OF THE GRADUATES ............................................................................. CCAS Faculty

CHARGE TO THE GRADUATES ........................................................................................ Paul J. Wahlbeck
   Dean

ALMA MATER ......................................................................................................................... Corcoran Brass

RECESSIONAL ....................................................................................................................... Corcoran Brass

The celebration program is meant to be a guide to the ceremony.

Although every effort has been made to ensure its accuracy, the program is not an official record of an individual’s degree.
FACULTY SPEAKER
Edwin Lo
Assistant Professor and DUS of Data Science; Columbian College of Arts & Sciences

Edwin Lo holds a Bachelor of Science in Physics from the Chinese University of Hong Kong and a Ph.D. in Physics from the Johns Hopkins University. He developed a passion for teaching while mentoring high school students after college and has continued his pursuit of learning, teaching, and research in the United States at many different educational levels. As a homeschool teacher for a decade, Dr. Lo mentored a group of high school students for the Mathematical Association of America's AMC10 competitions. In 2012, he received an Innovative Teaching with Technology Award from Stevenson University.

Dr. Lo began teaching in the Data Science Program at GW in the spring of 2017, and has served as that program’s inaugural director of undergraduate studies since the fall of 2021, growing the program to include more than 240 majors and minors in less than three years. At the master’s level, he regularly teaches the program’s introductory courses in data science and data mining and earns high praise from students for the comprehensive support and guidance he provides to students completing capstone projects. In addition, Dr. Lo started the www.physics.land web project, which combines physics and data science into an interactive teaching and learning tool, and he recently received a GW Libraries & Academic Innovation grant to develop open-source educational resources for equity.

DISTINGUISHED SCHOLAR SPEAKER

The Distinguished Scholar Award is bestowed upon a master’s student in the Columbian College of Arts and Sciences (CCAS) who has excelled academically and shown commitment to scholarship through participation in research or other academic leadership activities. With this prize, CCAS recognizes exceptional achievement and excellence in graduate student research, significant extracurricular or off-campus activity related to the student’s academic field of study, and/or important contributions to the growth and improvement of the student’s department, school, or the university. The 2023-2024 Award for Distinguished Master’s Degree Scholar is presented to Naïssa Lindsey Pierre.

Naïssa Lindsey Pierre
Master of Science in Applied Economics, Spring 2024

Before coming to GW, Naïssa Pierre received her Bachelor of Science in Civil Engineering at the U.S. Coast Guard Academy, where she was the first international cadet in any military service to become a Regimental Commander (the highest-ranking cadet). She decided to pursue graduate study in applied economics to gain the tools required to help better the economic and political climate of her country, Haiti, as well as other nations. During her time at GW, Naïssa combined her passions for human connection, economic growth, and inclusivity in a variety of endeavors. She led a group of three students in a unique capstone experience, working in partnership with the World Bank’s Data Lab to produce a final report that utilizes the students’ econometric and data science skills to help design more effective climate policies in developing countries. She also organized student events and set up a new buddy system designed to ease the concerns of incoming students by connecting them with current students in the program to offer advice and share their own experiences of adjusting to graduate study at GW.

Outside the classroom, Naïssa worked as a research assistant at the International Monetary Fund, where she helped train an artificial intelligence model to recognize certain economic indicators. She also played an important role in building a diverse and inclusive student community on campus. She was an active and committed participant as the master’s student representative on CCAS’s Diversity, Equity & Inclusion Council, further demonstrating her desire to use her time at GW to implement meaningful change.
AWARD FOR EXCELLENCE IN THE MENTORING OF MASTER’S STUDENTS

The Award for Excellence in Graduate Faculty Mentoring is given to a faculty member nominated by graduate students in the Columbian College of Arts and Sciences. Mentoring and advising are crucial to the intellectual life and career trajectories of graduate students across the arts, sciences, and professions. A good mentor is a source of wisdom and expertise, an inspiring role model, a compassionate critic, a sounding board, an advocate, and a career counselor. The 2023-24 Award for Excellence in the Mentoring of Master’s Students is presented to Suse Anderson, associate professor of museum studies.

Suse Anderson
Associate Professor of Museum Studies, Corcoran School of the Arts and Design

Suse Anderson joined the faculty of the George Washington University in 2016 and currently serves as program head and graduate advisor in the Museum Studies Program. For much of her career, her research focused on the intersection of museums and technology. More recently, Dr. Anderson has become concerned with investigating contemporary ethical dilemmas confronting the museum field. She is the co-author (with Dr. Keir Winesmith) of *The Digital Future of Museums: Conversations and Provocations* (Routledge, 2020) and former host and producer of *Museopunks*—the podcast for the progressive museum. As an instructor, Dr. Anderson seeks to practice a pedagogy of care, while also encouraging students to engage in critical consideration of the role of museums in society today and into the future.

Students in the Museum Studies Program consistently praise Dr. Anderson for the dedication and enthusiasm she brings to her teaching and advising. “Her passion for the subject material and her skill in facilitating engaging [classroom] discussions,” one student remarked, made her course “the only class I have ever taken where I wish that it could have gone on longer or that we could have met more often.” In a program filled with amazing faculty, students believe Dr. Anderson “is simply so incredible that she exists at a level entirely her own.” They note that she “is eager and available to assist when... a sympathetic ear [is needed],” “promptly answers questions,” and truly “cares about her students and the full experience of [their] lives - not just [their] coursework.”

Dr. Anderson recognizes her students’ potential and encourages them to maximize it, both academically and as they plan their future careers. “She has given me excellent advice on my course schedule,” one advisee recalled, “encouraged me to apply for awards and opportunities that otherwise felt out of reach,” and “help[ed] me think about my goals for and expectations of the future in new and clarifying ways.” For many students, Dr. Anderson has also “been a booster during difficult periods in [their] graduate studies.” She “ensures no one falls through the crack,” another student observed. “She is an amazing mentor, and I am looking forward to continuing our relationship beyond graduation.”
DEPARTMENTAL AWARDS

Anthropology
Lewis N. Cotlow Research Fund Award ................................................................. Victoria Rainis

Art History
Leite Prize for Outstanding Work by a 2nd-Year MA Student in Art History ........................................... Zhuolun Mi, Mary Grace Vallacchi

Art Therapy

Dear Graduate:

On behalf of the Columbian College National Council for the Arts and Sciences, I offer my congratulations on your significant achievement and welcome you to the George Washington University alumni community. Do not underestimate your accomplishment and the opportunities that await you!

As an alumna of this historic institution, I fully appreciate the excitement of this very special moment in your life and remember that feeling well. You are now a member of a select group of individuals, bonded by a college for which you will forever be proudly associated. I encourage you to remain involved and, more importantly, engaged with the university as you enter this next phase of your life. Your opportunities to make a difference are endless—from mentoring a student, to becoming an active member of the Alumni Association organizing regional and local alumni events, offering services as a career advisor or being a guest lecturer, and providing philanthropic support. Each of these types of engagement offers unique and wonderful opportunities to continue showing support and your pride in the university. And, of course, passing on that GW spirit!

My work as a volunteer on the National Council—which is comprised of alumni, parents, and friends who advise the dean of the Columbian College—has been an incredibly rewarding experience for me. I hope you find similar avenues of engagement and find opportunities to advance GW’s promise and potential.

Finally, it is not lost on anyone that your time here has required significant personal dedication and financial commitment. We are grateful for your investment and hopeful that your degree will lay the groundwork for future success in whatever career you choose.

Again, congratulations! It is both an honor and a pleasure to welcome you as a graduate of the Columbian College of Arts and Sciences, and I hope to see you at a GW event soon.

Raise High!

Elizabeth Craig, MPA ’83
Chair, CCAS National Council for the Arts and Sciences
Hail alma mater, to thy spirit
guiding, Knowledge thy closest friend in its strength abiding,
Pledge we fidelity ne'er its place resigning, Hail thee George Washington.
